

This document covers the acceptance tests and results for the following user stories

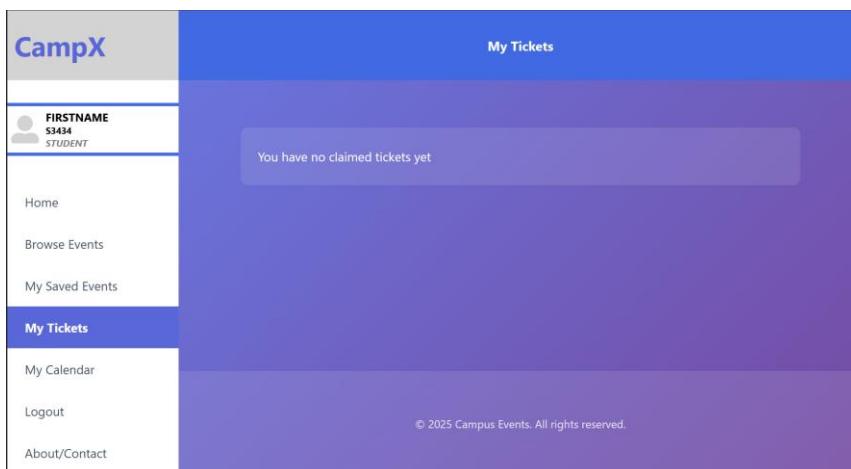

- **US.03 Save events to a personal calendar**
- **US.04 Claiming a ticket**
- **US.05 Receiving digital ticket with QR code**

Steps & Results

1. Login as a student. After logging in, the user is redirected to the home page.
2. Click on **Browse Events** in the sidebar - this will show the user a list of upcoming events. Each event is displayed as an event card with a button to claim a ticket

Before claiming any tickets, if the user clicks on **My Tickets** or **My Calendar**, the user sees a message indicating that they have not claimed tickets yet.

The screenshot shows the CampX application interface. On the left is a vertical sidebar with a user profile icon and the text "FIRSTNAME S3434 STUDENT". Below this are links: Home, Browse Events, My Saved Events, My Tickets, My Calendar (which is highlighted in blue), Logout, and About/Contact. The main content area has a blue header "My Calendar". A message box in the center says "You have no claimed tickets. When you claim a ticket, the event will appear on your calendar." At the bottom right of the main area, it says "© 2025 Campus Events. All rights reserved."

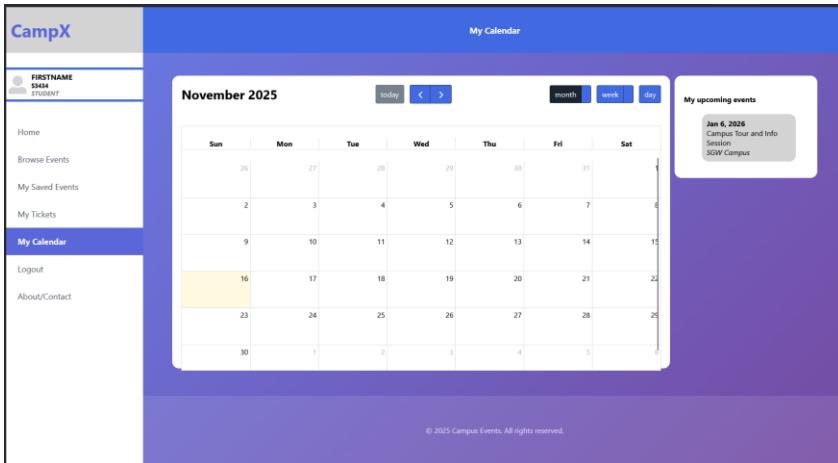

3. Claim a ticket for an event by clicking **Claim Ticket** on an event card – Once the user claims a ticket, they receive an on-screen confirmation notification, the **Claim Ticket** button change to **Cancel Reservation**, and the number of remaining tickets for the event is reduced by 1

The screenshot shows the CampX application interface. The sidebar is identical to the previous one. The main content area displays two event cards. The first card is for "Campus Tour and Info Session" with a thumbnail of a person at a desk, status "Orientation Free", and "139/150 tickets remaining". The second card is for "Meet Your Faculty Mixer" with a thumbnail of people in a room, status "Networking Free", and "90/100 tickets remaining". Both cards show a "Ticket claimed successfully!" message in a speech bubble. At the bottom of each card are "Save Event" and "Cancel Reservation" buttons. The "Campus Tour and Info Session" card also has a "Claim a Ticket" button.

After claiming one or more tickets, if the user clicks on **My Tickets**, they will see a list of all their tickets with their QR code.

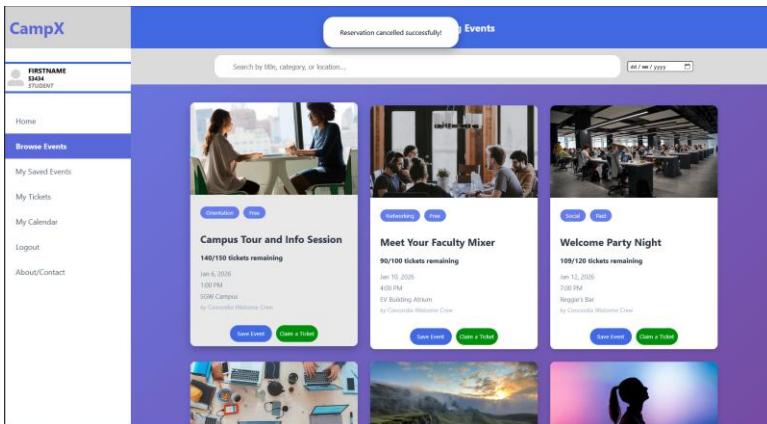

The screenshot shows the CampX application interface. The sidebar is identical to the previous ones. The main content area has a blue header "My Tickets". It displays a single ticket card with a QR code. To the right of the QR code, the ticket details are listed: Event: EV1021 - Campus Tour and Info Session, Name: LASTNAME, FIRSTNAME, ID: S3434, Ticket # EV1021-013, Event Date: 2026-01-06, and Event Location: SGW Campus. At the bottom right of the main area, it says "© 2025 Campus Events. All rights reserved."

After claiming one or more tickets, if the user clicks on ***My Calendar***, they will see a calendar displaying the events as well as a list of their upcoming events.

Additional feature - Cancel a reservation

- In Browse Events, you can cancel a ticket by clicking the red Cancel Reservation button

Results

- Number of available tickets for event is increased by 1
- On screen notification confirms that the ticket was cancelled successfully
- Red Cancel Reservation button changes to green Claim Ticket button
- After cancelling a ticket successfully, if you click on ***My Tickets*** in the sidebar, the digital ticket for the event you cancelled no longer appears
- After cancelling a ticket successfully, if you click on ***My Calendar*** in the sidebar, the digital ticket for the event you cancelled no longer appears on the calendar or in "***My Upcoming Events***"

The features work as expected, therefore the following user stories are complete:

- **US.03 Save events to a personal calendar**
- **US.04 Claiming a ticket**
- **US.05 Receiving digital ticket with QR code**
